

The World trusts the World Genius Directory. As Editor, I have had to create an ethical framework to ensure its integrity. As such, a visual PDF/JPG confirmation from the test author or psychologist is the standard. All updates must be from the same with the same visual proof. We have www.psiq.org, FaceBook page and group and it's important our standard is high and clear for all to see. Only first submission certificates are accepted. Listees in the WGD are entitled to list their IQ Tests and IQ Publications. Two listings are permitted upon one's initial listing, of one psychologist test and/or one high-range test.
